

Manual projection screens

Easy construction and easy operation

The ProScreen and SlimScreen projection screens offer uncomplicated ease of use. With their spring mechanisms, these projection screens are easy to roll up and down, simple to assemble and highly versatile. All in all, they provide a simple and reliable solution for various projection environments such as "Home Cinema", classrooms and meeting rooms.

For small to medium-sized rooms.

Reliable height adjustment thanks to CAMLOCK locking system.

Wide selection of seamless screens at various quality levels.

Black borders add extra contrast to the image.

All screen fabrics are fire-retardant.

Easy to mount on wall or ceiling.

Accessories:

- ▶ Ceiling brackets
- ▶ OHP extension arms
- ▶ Pull rod

See page 34/35 for further details.

ProScreen

- ▶ High-quality projection screen for use in small to medium-sized rooms.
- ▶ Screen dimensions with widths of 160 to 280 cm.
- ▶ Perfectly flat projection surface thanks to a large diameter roller and powerful spring mechanism.
- ▶ Supplied complete with pull-cord.

SlimScreen

- ▶ Basic model with spring mechanism for use in small rooms.
- ▶ Screen dimensions with widths of 125 to 180 cm.
- ▶ Spring mechanism ensures that the projection screen rolls effortlessly up and down.
