

LBB 3531/00

Delegate Discussion Unit with Channel Selector

- Channel selector for accessing interpretations
- 2-digit channel indicator display
- Two headphone sockets
- Incorporates all functions of LBB 3530/00 Delegate Discussion Unit

The LBB 3531/00 is stylistically identical to the LBB 3530/00 standard Delegate Discussion Unit, but also includes a built-in language channel selector. This makes it suitable for discussions where more than one language is used and simultaneous interpretations are available. The channel selector includes up and down select keys and a 2-digit display, enabling rapid selection of the required language channel. Channel selection is automatically limited to the number of language channels available.
